

## PC USB Logic Analyzer

32 Data Input Channels, 64M Sample Depth

### Hantek4032L

#### Features

- Combines the functions of logic analyzer, bus analyzer, and logic probe etc.
- Up to 32 data input channels.
- 2G bits memory depth (DDR2), 400MSa/s sampling rate.
- Deep data buffers (up to 64M samples).
- Continuously variable pre/post trigger position.
- Advanced multi-level triggering.
- +6V to -6V adjustable logic threshold.
- Plug and play USB2.0 interface.
